

EMZOR ENVIRONMENTAL POLICY

The EMZOR's commitment and principles to sound environmental performance through the provision of a framework for action and the setting of environmental objectives and targets are in line with the EMZOR Brand promise of 'WELLNESS FOR EVERYBODY' in which we are committed to safeguarding the environment and prevent pollution through the implementation of an effective Environmental Management System (EMS).

In order to achieve a sound environmental stewardship and sustainable operations in which all employees, customers, visitors, contractors and other stakeholders will benefit from, we are committed to:

- Executing our activities in compliance with applicable local and International environmental laws and regulations
- Pollution prevention and resource conservation and we shall maintain a high level of environmental stewardship in our operations
- Setting objectives/targets and performance standards in order to promote continual improvements in environmental management system/performance and the prevention of pollution.

It is our policy to;

- Enhance proper waste management through measures that encourage minimization, recycle and reuse of processed waste.
- Systematically evaluate the environmental impact of our activities on the physical/ socio-economical aspects of our operational environment and the implementation of corresponding mitigating measures.
- Encourage individual responsibility for sound environmental management, the provision of adequate means and organization as well as environmental training programmes for our staff and contractors
- Co-operate with federal, state and local governments and other relevant stakeholders in sharing/analyzing emerging environmental issues/experience, finding solutions to environmental problems and developing cost-effective, scientifically-based environmental standards.
